1 No	Bandsaw Guide Fence	A	100205
1 No	Guide Fence Rail	B	
2 No	Mounting Brackets	C	
1 No	Instruction Manual		

Mounting the Fence to the Bandsaw

Step 1

Place the mounting brackets to the fence rail and loosely lock them in place with the two locking knobs.

Step 2

Position the guide fence firmly down on top of the guide fence rail and press down the handle to lock in place. Make sure it is correctly positioned with the bearings flush on the rail.

Step 3

Place (clamp preferably) the fence onto the table, put the attachment brackets as far apart as possible. Tighten the locking knobs. Press the assembly to the table top and front edge. Using a sharp pencil mark the position of the fixing holes in the attachment brackets. Remove the fence assembly and in the centre of the hole marks drill 5mm diameter holes and tap M6.

(For guidance.... the centre line of the holes should be approximately 23mm below the table edge.)

WARNING! MAKE CERTAIN THAT EVERYTHING IS LOCKED IN PLACE BEFORE USING THE BANDSAW

Please dispose of packaging for the product in a responsible manner. It is suitable for recycling. Help to protect the environment, take the packaging to the local recycling centre and place into the appropriate recycling bin.

Only for EU countries

Do not dispose of electric tools together with household waste material. In observance of European Directive 2002/96/EC on waste electrical and electronic equipment and its implementation in accordance with national law, electric tools that have reached the end of their life must be collected separately and returned to an environmentally compatible recycling facility.
