Instructions

Sprinkle surface with water. With
cutting edge away from you, hold
blade 20° to the diamond surface.
Stroke blade heel to tip during the
stroke. Multiple strokes on first side,
flip and repeat on other side. Rinse
with water and store dry.

Stroke edge forward.
Flip and repeat.

Place edge at optimal
sharpening angle

No oil needed.
Use water, or use dry.

DMT® Diamond Sharpener Grits

Grains de L'Aiguiseur Diamant DMT / Limaduras para Afiladores de Diamante DMT
